Linux

Docker

Git

Jira

## PROFILE

Emerging from the Austin Coding Academy as a front-end developer, my experience has since broadened to more general software as well. More than anything, I am an avid minimalist who believes in the prioritization of maintainability and documentability.

## EMPLOYMENT HISTORY

**Software Engineer Intern, Bazaarvoice**                        Remote
May 2021 – August 2021

Was responsible for improving the Curalate service—a broad platform enabling brands to connect with shoppers and provide a more authentic shopping experience by relying on user-contributed media from social networking sites, among other features.

- Extended, improved, and bug-fixed various API services, and in doing so gained a comprehensive understanding of the microservice architecture
- Made significant contributions to the open-source project twitter4s
- Engaged in daily standup meetings and worked closely with other engineers

**Software Engineer Intern, Bazaarvoice**                        Remote
May 2020 – August 2020

Engineered a solution to migrate data from production DynamoDB tables to newly managed PostgreSQL instances.

- Migrated existing NoSQL data into a relational format using a custom Python script
- Developed and deployed infrastructure using Cloudformation templates

**Software Engineer Intern, Bazaarvoice**                        Austin, TX
May 2019 – November 2019

Developed a full-featured internal tool using React and Redux, easing the amount of effort required to accomplish the everyday processes of many teams.

- Worked with authenticated APIs to retrieve, create, and update data.
- Adopted an agile workflow in which constraints and requirements could change often and needed to be responded to in a timely manner

**Software Developer Intern, Hunt Gather**                        Austin, TX
June 2017 – August 2017

Spent a summer working intimately with a small team of designers to prototype and develop a range of web apps and static websites.

## EDUCATION

**University of Texas at Dallas, B.S. in Computer Science**
May 2023

**Austin Coding Academy, Graduation from Advanced Class**
September 2016
